To Whom It May Concern:

It is my pleasure to convey a heartfelt recommendation for Tilak Bisht. Galbette has outsourced web related services to Mr. Bisht since October 2003, he has been our exclusive web designer. We still have an active working relationship with him and continue to use his services with complete confidence.

During his time with us, Tilak was responsible for many diversified projects, beginning with the conceptualization and visualization through to the final completion and uploading of the design to our servers. These projects required a working knowledge of website design, website optimization and registration, graphics, print design and animation. Skills necessary for these projects included HTML, JavaScript, CGI, MS Access, DHTML and various web related skills. He is always willing to learn new technology.

Other outstanding traits that should be mentioned are his ability to stay focused on a project and see it through to its completion while meeting all deadlines. Several times we needed web pages or sites designed immediately to meet various marketing goals we had set. Each time he displayed a professional attitude and willingness to do whatever it took to meet our expectations and needs. We felt he always had the best interests of our company in mind and worked diligently to deliver a quality product in a timely manner. He is an asset to any employer and I recommend him for any endeavor he chooses to pursue.

Sincerely,

Ben Mouloungui
Sales Manager
